Executive Summary

Community Interest and Opinion Survey

Executive Summary of Citizen Survey Results

Overview of the Methodology

The City of Lake St. Louis conducted a Community Interest and Opinion Survey during the spring of 2009. The purpose of the survey was to assist the City in establishing park and recreation priorities by helping to determine the community's desire to fund and construct additional park improvements, purchase land for parks, create a trail system and offer more recreational programs. The survey was designed to obtain statistically valid results from households throughout the City of Lake St. Louis. The survey was administered entirely by mail.

Leisure Vision worked extensively with City of Lake St. Louis officials, as well as members of the SWT Design project team in the development of the survey questionnaire. This work allowed the survey to be tailored to issues of strategic importance to effectively plan the future system.

In March 2009 Leisure Vision mailed surveys to all households in the City of Lake St. Louis. The goal was to obtain a total of at least 600 completed surveys from City of Lake St. Louis residents. This goal was far exceeded, with a total of 1,633 surveys having been completed. The results of the random sample of 1,633 households have a 95% level of confidence with a precision of at least +/-2.4%.

The following pages summarize major survey findings:

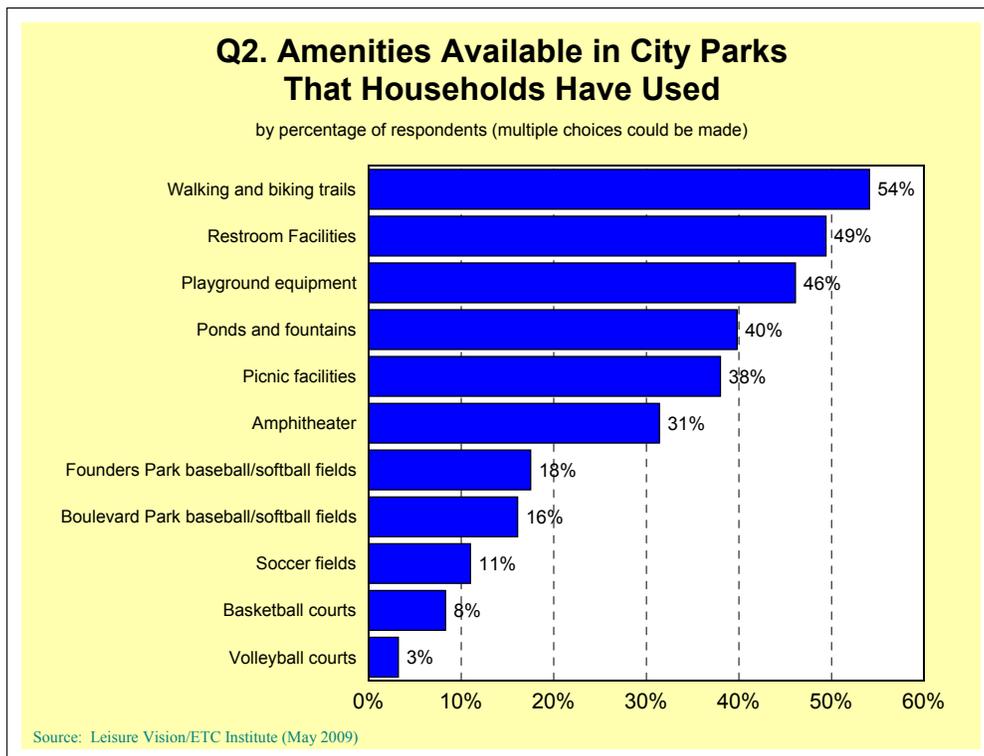

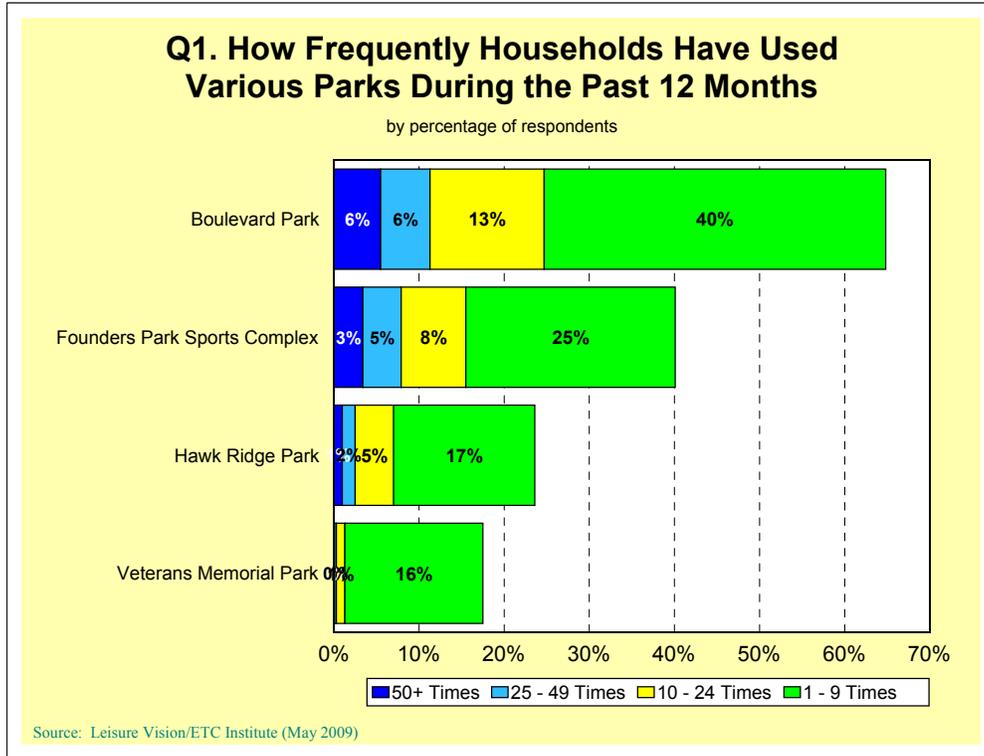

Major Survey Findings

- **City Parks Visited in the Past 12 Months.** Sixty-five percent (65%) of households have visited Boulevard Park at least once during the past 12 months. Forty percent (40%) of households have visited Founders Park Sports Complex at least once during the past 12 months, 24% have visited Hawk Ridge Park, and 18% have visited Veterans Memorial Park.
- **Amenities Used at City Parks.** Fifty-four percent (54%) of households have used walking and biking trails at City parks. Other amenities frequently used at City parks include: restroom facilities (49%), playground equipment (46%), ponds and fountains (40%), and picnic facilities (38%).
- **Most Important Amenities to Improve.** Based on the sum of their top three choices, the City park amenities that households feel it's most important to improve are: walking and biking trails (44%), restroom facilities (29%), playground equipment (25%), and picnic facilities (22%).
- **Participation in City Recreation Programs.** Twenty-five percent (25%) of households have participated in recreation programs offered by the City of Lake St. Louis during the past year. Of the 25% of households that have participated in City recreation programs during the past year, 92% rated the overall quality of the programs as either excellent or good, 7% rated the programs as fair, and only 1% rated them as poor.
- **Recreation Facilities Used in the Past 12 Months.** Of the 76% of households that are members of the Lake St. Louis Community Association, the Community Association Clubhouse (55%) and lakes (55%) are the recreation facilities that have been used by the highest percentage of households over the past 12 months. Eighty-seven percent (87%) of households rated the physical condition of the recreation facilities they've used as either excellent or good, 12% rated them as fair, and only 1% rated them as poor.
- **Level of Support for the City Developing Parks and Recreation Facilities for All Residents.** Forty-two percent (42%) of those surveyed are either very supportive or somewhat supportive of the City developing parks and recreation facilities for all City residents, even if some of those parks and recreation facilities are already provided by the Community Association. Thirty-five percent (35%) of respondents are not supportive, and 23% are not sure.
- **Most Important Projects for the City to Develop.** Based on the sum of their top three

choices, the projects that respondents feel it's most important for the City to develop are: additional picnic pavilions in the park system (26%), build restrooms and concessions at Founders Park (21%), new water spray parks (20%), and dog park (20%).

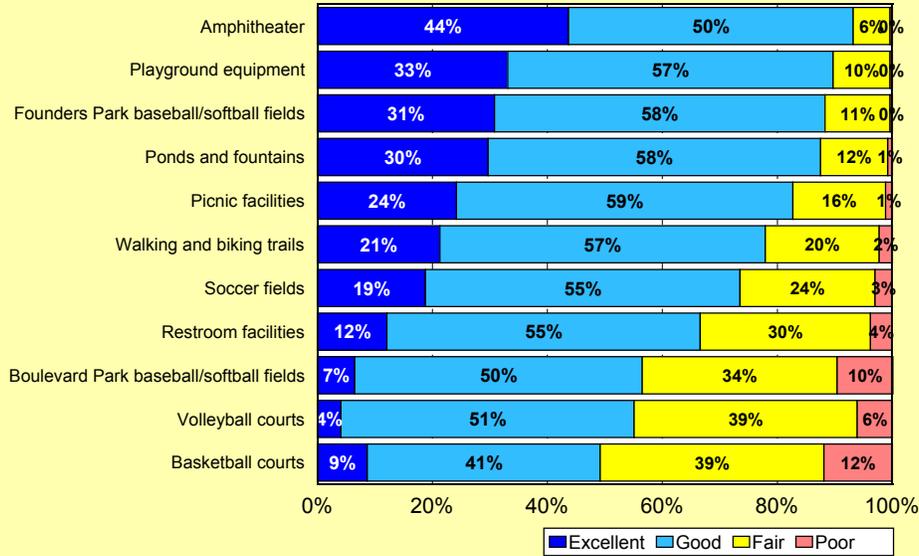

- **Tax Options Most Supported.** Fifty-six percent (56%) of those surveyed support some type of tax increase to help build and operate the types of outdoor and indoor parks, trails, sports and recreation programs spaces that are most important to their household. Thirty-two percent (32%) prefer a sales tax increase, 14% prefer a combination of a property tax and sales tax increase, 5% prefer a property tax increase, and an additional 5% would support either a property tax or a sales tax increase.
- **Most Important Potential Indoor Spaces.** Based on the sum of their top four choices, the potential indoor programming spaces that respondents feel it's most important for the City to develop are: walking and jogging track (45%), weight room/fitness area with cardio training (44%), leisure pool (25%), and lanes for lap swimming (22%).
- **Frequency of Using a New Indoor Recreation Center.** Sixty-two percent (62%) of households would use a new indoor recreation center in the City if it had the features they most prefer at least once a month. Forty-five percent (45%) of households would use the new center at least once a week.
- **Level of Support for Using City General Fund Money to Help Fund a New Indoor Recreation Center.** Thirty-three percent (33%) of those surveyed are either very supportive or somewhat supportive of using City general fund money to fund a new indoor recreation center if it could not support its operations through user fees. Forty-three percent (43%) are not supportive of using City general fund money, 22% are not sure and 2% did not provide a response.
- **Voting to Fund Outdoor and Indoor Parks, Trails, Sports and Recreation Facilities.** Forty-four percent (44%) of those surveyed would either vote in favor (24%) or might vote in favor (20%) of funding the types of outdoor and indoor parks, trails, sports, and recreation facilities that are most important to their household. Thirty-two percent (32%) would vote against the funding, 20% are not sure, and 4% did not provide a response.

- C. Construct Lake Saint Louis trail system to connect with County’s Quail Ridge Park
- D. Do not support any of these improvements

13. Listed below are a full range of parks, trails and indoor recreation facilities that **may be considered for construction** by the City of Lake Saint Louis over the **NEXT 6 YEARS** should funding be available. These projects would require either a Property Tax or Sales Tax increase. The maximum amount the City can bond **with additional property taxes** is \$13,000,000.

The cost for each project listed below is an **estimated annual property tax increase** that would be paid on a home with an assessed value of \$250,000. For each type of project, please indicate if the amount of additional property tax being considered for the project is too low, about right, too high, or don’t know.

15. From the following list please check no more than THREE projects in the City of Lake Saint Louis you would be most willing to develop. The cost for each of the projects listed below would be paid for from City general funds as funds become available.

- ___ (A) Renovate/improve the existing concession building at Founders Park
- ___ (B) Build extra restrooms and a new concession building at the west end of Founders Park
- ___ (C) Renovate/improve baseball/softball field lighting at Founders Park
- ___ (D) Additional picnic pavilions in the park system.
- ___ (E) New tennis courts
- ___ (F) New football field
- ___ (G) New water spray parks with ground nozzles that spray water upwards in no standing water
- ___ (H) Outdoor basketball courts
- ___ (I) Dog park
- ___ (J) Other: _____

16. Which THREE projects listed above in Question #15 do you think are most important for the City of Lake Saint Louis to move forward in funding? [Please write in the letters below for your 1st, 2nd and 3rd choices using the letters from the list in question #15 above or circle none.]

_____ 1st _____ 2nd _____ 3rd NONE

17. Another option to fund capital improvement projects for parks and recreation projects is to increase the sales tax charged on goods. Sales taxes are paid by both residents and non-residents buying goods in the City. The City of Lake Saint Louis currently imposes a 1% sales tax on purchases to fund police, community planning and building, parks and streets. An additional 0.5% (one half percent) sales tax helps pay the costs of street construction and maintenance.

A one half cent sales tax on goods sold in Lake Saint Louis could be substituted for an increase in property tax to fund the development of new parks and recreation facilities and programs in the City of Lake Saint Louis. A one half cent sales tax would raise \$1.1 million annually. This would increase the sales tax from 7.4% to 7.9% in non Transportation Development Districts and from 8.15% to 8.65% in the Transportation Development Districts of the Shoppes at Hawk Ridge and The Meadows.

Knowing this, which ONE of the following options best describes the type of tax support you would be most willing to support to build and operate the types of outdoor and indoor parks, trails, sports and recreation program spaces most important to your household?

- ___ (1) Property taxes increase
- ___ (2) Sales taxes increase
- ___ (3) I would support either a property tax or sales tax increase
- ___ (4) Combination of property tax and sales tax
- ___ (5) Neither. We do not need any additional parks and recreation facilities.

18. Listed below are INDOOR FITNESS AND RECREATION program spaces that could be developed by the City of Lake Saint Louis. For each one, please indicate approximately how often you and members of your household would use each of the features.
